Foreword

Amid the general activity of learning, we have enjoyed a priceless and memorable high school career. Our future accomplishments and ambitions will depend largely upon the knowledge and determination to learn we have acquired during these years, for it is today that determines tomorrow.

As we near the exodus, it is with deep regret that we, the Class of 1965, leave the classrooms of R.C.S. We hope that we have contributed to the status and morale of our school, and trust that our station will be replaced by enthusiastic and deserving students.

We wish to extend a final thanks to all those who helped in making memorable our ambitions, activities, and accomplishments at Randolph Central School.

—Class of '65

Administration

*James F. Davis - District Principal;
Gail N. Chapman - Elementary Principal;
Milton R. Horak - Secondary Principal.*

Board of Education

SEATED: Leland Dexter, Raymond Van Wie, Vice- President, Leon Carr, Rhea Palmer. STANDING: Charles Mason, Russell Young, President, John Cowen. LOWER RIGHT: Betty Hinkle, Clerk.

Mr. Jack Berger

We, the class of 1965, dedicate this yearbook to Mr. Jack Berger, our teacher, helper, and friend. His long and devoted association with Randolph Central School has been felt and appreciated by teachers and students alike. We are indebted to him for his priceless assistance in photography, public relations, and friendly interest in our behalf.

Mr. Berger, we consider it a real privilege to have been associated with you as a teacher, helper, and friend. To recognize your interest in our behalf, we dedicate to you the 1965 Hilltop.

Dedication

Class of 1965

Principal's Message

Lincoln said, "You cannot help men permanently by doing for them what they could and should do for themselves."

Success is measured by contributions - your contribution to life. Life has done you many favors.

There are among the many things this world needs - things you can do. You must find them and make your contribution. You can. Never sell yourself short. Never underestimate your ability. May God guide you through a successful life.

Sincerely,

James F. Davis

The Road to the End

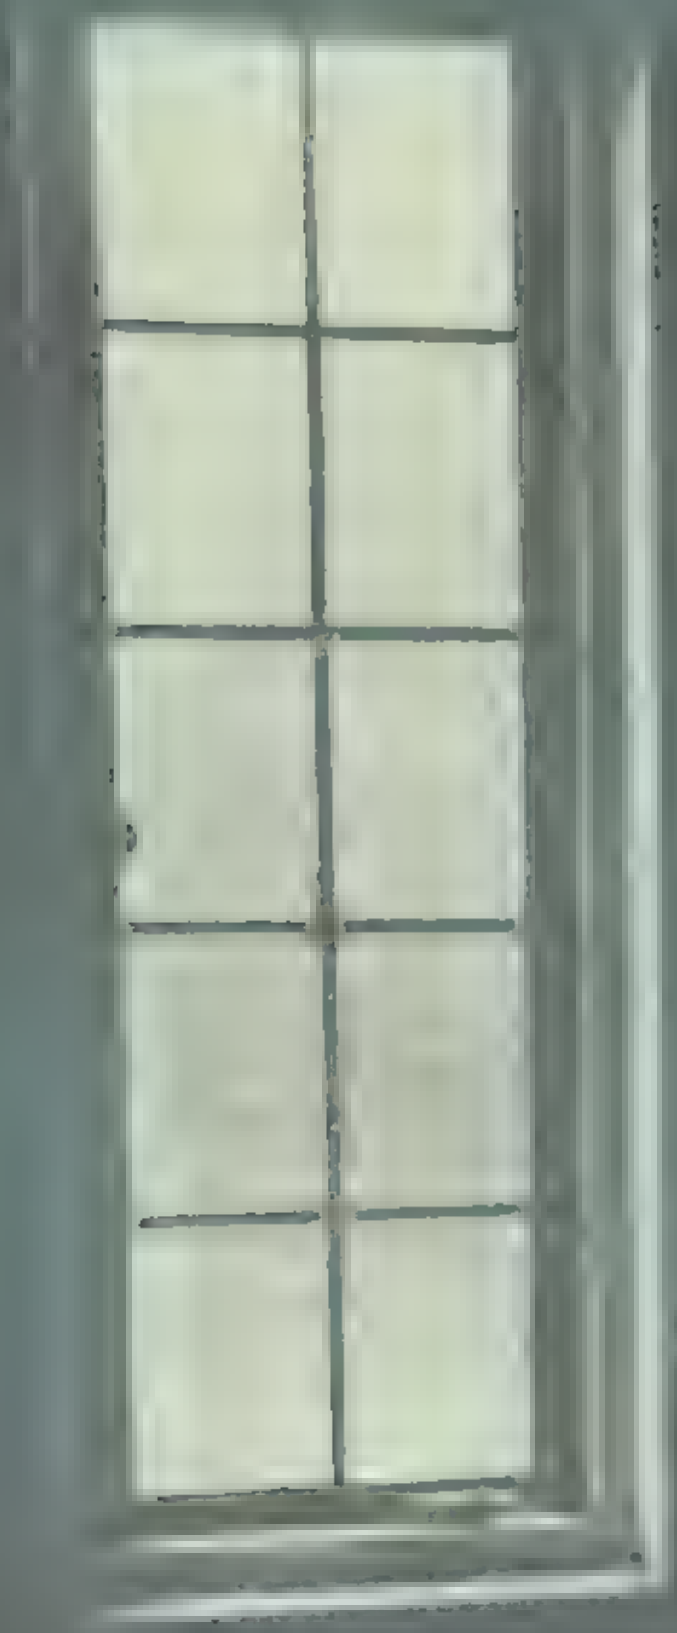

*I find it
-Down the roadway in the dusk.
Where shapes of hunger wander
And the fugitives of pain go by.
I shall foot it*

*In the silence of the morning
See the night slur into dawn,
Hear the slow great winds arise
Where tall trees flank the way
And shoulder toward the sky.*

*The broken boulders by the road
Shall not commemorate my ruin.
Regret shall be the gravel under foot.
I shall watch for
Slim birds swift of wing
That go where wind and tanks of thunder
Drive the wild processions of rain*

*The dust of the traveled road
Shall touch my hands and face.*

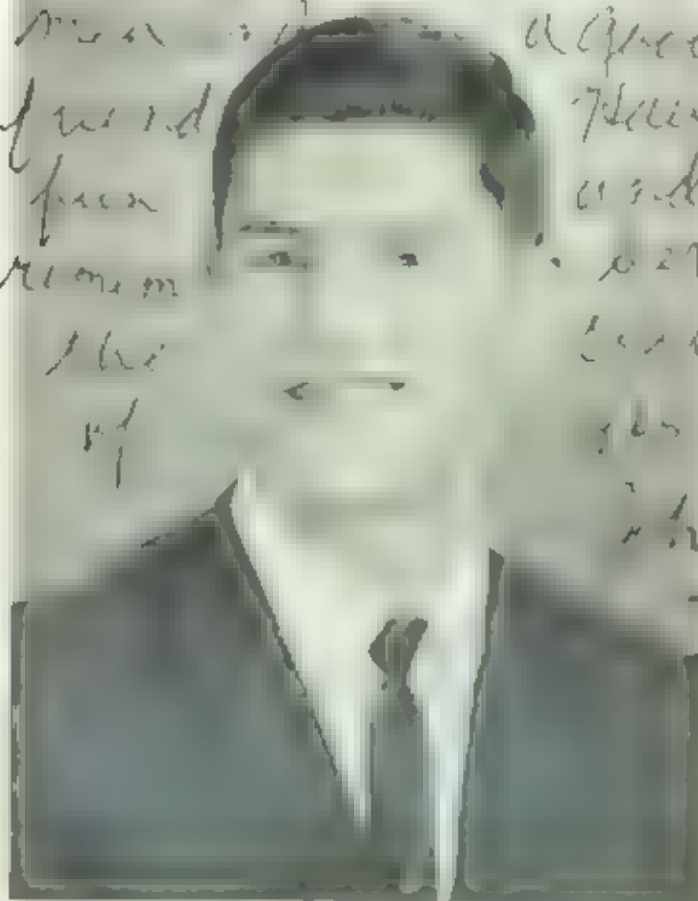

Carl Sandburg

Our Foster Child

SOUTH CHINA SEA

She is the oldest of three children, having a younger brother, Hung, five years old, and a baby sister, Hanh, one year old. Anh's father is from working, so her father provides for

live in a square, with a dirt floor and very little furniture. The fifteen dollars that we York office, which in turn, sends to her and her family, \$5 in cash, clothing, nourishing food, household equipment, and medical care, whenever it is needed.

Each month Anh writes a letter to her foster parents at RCS. These letters are sent directly to New York for translating, and then forwarded to Randolph. Here are a few lines from one of her letters:

June 1964
Dear Foster Parents,
I am Ngoc Anh, your foster child. I am sending these lines to inquire about you and your families. I hope that you all enjoy the best of health and much prosperity.

I am very happy to be your foster child for with your help, I have a happier life and can go to school for education. I believe that I will have a good education, and I will try hard to please M. B. O. D. I have received your allowance of ten, three cakes of toilet soap, a raincoat, some vitamins, and I thank you very much indeed. I ask permission to stop here. Good-bye till my next letter.

Raul

I was born on February 9, 1948, the son of Daniel Martinez and Elba Lepo. My home town is Talcahuano, which is a port on the Pacific Ocean. It's population is almost 115,000 people and it is principally an industrial city. It also has a barge service for merchant shipping. The Chilean Navy floating crane has a capacity of 165 tons and the docks can serve approximately 550,000 tons a year.

There is a steel plant which has additional docks which can serve 110,000 tons a year of raw materials, and more than 275,000 of sundry freight. Fishing is also an important industry.

My city has many public and private schools. I go to school in the Talcahuano State High School of about 1,500 students; both boys and girls. Our school day starts at 8:30 A.M. and ends at 5:45 P.M., with a lunch period from 12:30 to 2:30 P.M. During the day, we have nine periods of forty-five minutes each, with a break of from five to fifteen minutes. We don't have as many study halls as American schools do. We are permitted to go to the library once a week. A new rule which was adopted in 1962 requires us to wear uniforms during school activities. Student problems are taken to our student government which is well organized. Every class has to send two delegates and its president to the student government. Since we have thirty classes in the school our membership in the student meetings counts about ninety. We have fewer clubs in our school than in the school here. These are especially devoted to the promotion of scientific, mathematical, or literary subjects among the students. The other clubs, as sports, belong to branches of the student government. We also have a student union which is an organization in the provinces. Every high school has to send delegates. The whole group of provinces

forms the student union of the country. This organization has to deal with the big problems of the students and tries to look for solutions for them. Every grade is divided into several sections and we have thirty different classes with an enrollment of about thirty-five students. We don't have to go to the teacher's rooms, the teachers come to the classes. There are three twelfth grades, A, B, C. A is the class for students who want to go to college and study languages or history or literature. The twelfth grade B is for students who want to study scientific subjects during their college years. Finally, we have the grade C which is for mathematical studies. At school, we play basketball and soccer, girls also play volleyball. We have a basketball team. It was one of the best until last year when most of the players finished high school. During the year, we have basketball tournaments and most of the school attends. The school does not provide us transportation.

During the period between 1959 and 1964 we have sent 19 students and have received 4 Americans through A.F.S. All of them have been very nice people and before I came here, I supposed all Americans were like them. Now I can say that I am sure.

When the senior class gave me the beautiful class ring, they told me it was for me to remember this year and their class. But I know that I won't need any material thing to remember this year or anyone I've met.

If someone wants to go to Chile someday, I am sure that everyone in Chile would be ready to receive him. Our economy is that of an underdeveloped country, but everybody is welcomed. I look forward to seeing you there someday.

Raul Martinez

Dave

This past summer, I had the great honor of representing Randolph Central School in the American Field Service Program. I am very proud to have been able to carry the blessings of the United States to Italy. I never dreamed that when I left New York City on June 27, 1964, that I would be embarking on such a unique experience.

The only advice we received was this: You are not a tourist. You are not on a vacation. You are an A.F.S.'er. This signified the whole purpose of an American Field Service Scholarship: to gain a better understanding of foreign lands and its people through personal contact.

The new language, customs, and especially people made an enduring impression on me. Never have I learned so much in such a short length of time. I hope that I have been able, through speeches and talks, to pass on the full essence of my experience.

May I now, on behalf of this great corps of international ambassadors, thank everyone involved in making an American Field Service Program possible at R.C.S.

"Arrivederci e grazie",

Dave

National Honor Society

The emblem of the National Honor Society is a keystone, upon which is superimposed a flaming torch. The keystone has for ages been the symbol of strength and of perfection, for the keystone fits smoothly and truly into the top of the arch and holds the structure stoutly together. Thus the keystone is the symbol of character. The flaming torch symbolizes the light of knowledge, which is to be carried into the darkness of ignorance to enlighten the shadowy places of the world. At the base of the keystone and on either side of the torch are the letters C, S, L, and S, the initial letters of the words Character, Service, Scholarship, and Leadership.

Debating

The Randolph Debate team was established for the purpose of giving experience in public speaking and logical thinking to as many students as possible. The club participated in 13 rounds of debate or 101 individual debates and 3 tournaments. A workshop at Camillus College was a part of the program. Randolph debated in the "C" division of the Southern Tier Debate League which included the schools of Randolph, Archbishop Walsh, Bradford Central Christian, Olean High, and Cattaraugus Central School.
